THE JOCKEY CLUB AND THE PUBLIC

TO THE EDITOR OF THE "DAILY PRESS." SIN .-- Are you in a position to inform me by what right the Stewards of the Hongkoug Race ful aid, while the excellent orchestra under. Mr. He moved therefore the adoption of the by laws Club have entirely alienated acres of ground set apart, ever since the foundation of this colony, for the use of the Public, from them, for the I am aware that a few years ago a nort of Jockey Club was formed here and that it obtained from the Government for a nominal consideration the custody and charge of the Racecourse, engaging to keep the tracks in good serviceable order and condition, so as to be enabled to provide first class sport to the community. This was the alleged ground on which the concession

was obtained and it must be quite clear to every one that a responsible body like the Race Club could keep the place in better condition for the enjoyment of the public than an unconstitutional institution-like the venerable "Race Fund." It was, however, always clearly understood that the public should benefit by Governor Bowen's somewhat arbitrary act of giving away, if only public, and only for those reasons such a concession became possible and was sanctioned Have the Race Club seted up to the spirit of their agreement? Decidedly not! "At first everything seemed to go or quite

smoothly between the Club and the outside public. The Club had taken over from the old Race Fund" (quite illegally I contend) its property, including the "Grand Stand," &c., but the outside public was for some time hardly aware of the fact and the altered of cumstances. We. for I am a non-member, used to take our recrea tion, including an occasional ride on the tracks or in the interior as formerly, and went during the cool weather in the morning to the course to watch training operations, and those who liked took their oup of coffee there as of old. But all that did not last long! Soon a rule came out, that only members were allowed to ride on the tracks, then we were told that we

could not get any more coffee and were shown a board, hung out at the entrance to the Grand Stand, "for members only." The old grazy chairs which used to be placed under this noble structure had been removed up stairs and the coffee table also. Thus we were left standing shivering, without a chance of getting any refreshment during these chilly mornings. During the past summer great improvements.

have been made in the Happy Valley. The "Park" has been drained and turfed, and the Race Club have, with the aid of a newly imported "new broom" and a heap of Mexicans, put both the tracks in excellent order. That is all very well as far as it goes, but this Shanghai gentleman seems to forget that in Hongkong peremptory and arbitrary orders, like the ones he issues, are very much out of place. A month ago a potice, "The course is shut," stered me in the face, when I want, for my constitutional round the course, and now he has gone so far as to shut up the whole so-called "enclosure" against the public.

I was thunders ruck to find yesterday, morning a notice stuck up on the gutes to the course and enclosure "for Members only," and found that I and several of my friends and others were simply turned away from the entrance to paradise. It seemed incredible, and on inquiry I have been told that Mr. Gore Booth has acted simply on his own authority without the order of the Stewards. This may be so or it may not be so; the fact remains that for the present a large section of the community are deprived of their rights and means of inpocent recreation and amusement. The Club have enclosed nearly a quarter of a mile of ground, public property, against the rightful owners and have through their servant shown a deplorable spirit of exclusiveness and meanness, altogether apart from mala fides in regard to the conditions under which they received the

I am convinced that the Stewards will speedi ly set matters right when they come to think over the case. In the meantime I and my cosufferers ask ourselves over and over again what possible objection there can be for nonmembers to amuse themselves in watching the raining operations? The members of the Race Club are surely not above making bets with us of their preparations. poor outsiders or taking our money at the lot teries. Would they deprive us of the means of getting at the merits of the various makes in training? I cannot believe it!-Yours faithfully.
